Please provide your comments on the proposed project in the space provided below:

I own property on the Hatahet Ranch. 2 pieces. My property on the west side is already encompassed by the 69 kV line. It is not pretty. It runs through the east end of the property and is far enough away from the residential site to be tolerable. (Unlike it was there) According to the map, my second piece of property is within the corridor that follows County Road 339. We purposely found property that did not have power lines and now you propose to run them through. I am not in favor of this at all.
